# Lease AED

Affordable Defibrillator Rental

## How it works...

- 1 Register online at:  
<https://fc-safety.com/aed-lease-cr2/>
- 2 Upon approval you will be sent all the equipment needed to establish a safer workplace
- 3 Easy installation of equipment includes: AED, AED Cabinet, AED Program Management, First Aid Cabinet
- 4 Expiring AED supplies shipped prior to expiration dates, during lease term
- 5 At the end of lease term, you can purchase the AED!

## Why establishing an AED Program is a good idea:

There are over 350,000 Sudden Cardiac Arrests that take place in the United States every year, according to the American Heart Association. And the chances of survival are not good for those victims; less than 10% survive, unless there is an AED present, and then the survival rates can be as high as 70% or more. And cardiac arrest is one of the leading causes of death in the workplace.

- Reduce workplace risk by giving staff the means to save a life
- Invest in your employee's survival
- Managing an AED is easy:
  - Monthly inspections are a breeze
  - Keeping equipment up to date takes seconds
  - Program management helps keep everyone in compliance
- We take care of filings and fees that your state may require
- Customized response plan provided for each location (used as a blueprint for survival)
