Hang tag attached to the AED Unit

We carry a full line of PPE items from Gloves, Masks, Sanitizers, and other items!

THE BENEFITS OF HAVING THE FC SAFETY AED MAINTENANCE PROGRAM:

- ✓ **Peace of Mind** – Your supplies are sent automatically.
- ✓ **Reduce Exposure** – Our robust AED Program Management ensures legal compliance.
- ✓ **Cost Effective** – Our solution saves up to 50% over van-based first aid service monitoring.
- ✓ **Convenient** – Our technology makes it easy to monitor your program
- ✓ **Continuity** – Installing our AED Maintenance Program ensures the program continues even if employees leave or switch roles. With our reporting system, you will be notified if any when your sites or AED's fall out of compliance.
- ✓ **Limits outside exposure** – No outside contractors come into your workplace.

HOW IT WORKS:

- ✓ Select your AED Type

*Maintenance plans include AED Program Compliance Management license, Pads, Battery

- ✓ Register your device in our Program Management System – Once we receive your location and AED data, we will activate your FC Safety AED Program Management System.
- ✓ After a brief online training, your site(s) can start utilizing the Program Management system to maintain compliance with the AED Good Samaritan laws that apply to your site
- ✓ Ongoing Support: We are available online or by phone for any of your sites if they have questions about the AED Program.

Optional Features

As an additional safeguard we can add Remote Monitoring for **\$20 per month**

- ✓ Automate your Monthly Device Checks
- ✓ Streamlined Technology – The AEDStatus device reads the electromagnetic signal every time your AED performs a self-check.
- ✓ Cost Effective and Convenient – Device lasts up to seven years. Has external power source from the AED
- ✓ An electronic monitoring system that sends a status report automatically to the AED Program Management alerting the site of any issues
