FC Safety Premium First Aid Solutions!

FC SAFETY

+ **Easy to Monitor and Maintain**

+ **Save up to 50% over van based first aid service**

+ **Control Your Spend: Get only what you need**

The FC Safety **Premium First Aid Program** consists of:

First Aid Cabinets/Kits that are standard or customized

Ready Reserve Safety Center: A stand alone stock of First Aid, Emergency Preparedness & PPE Supplies

FC Safety Shield: Our revolutionary NFC Inspection Tool

FIRST AID CABINETS

FC Safety makes it easy to comply with CFR 1910.151 (b) which requires readily available first aid supplies in most workplace environments.

Besides offering traditional first aid cabinets, we also offer ANSI compliant **SmartCompliance® First Aid Cabinets**, and **SmartCompliance® Grids** for converting traditional first aid cabinets.

The **SmartCompliance®** system has fixed grids for your supplies, this keeps the cabinets organized and uniform, and easy to maintain. Either option will save you money over van based first aid service.

SmartCompliance® First Aid Cabinets are designed to help your business easily maintain your business first aid program so that you remain in compliance and save substantially versus expensive van based service.

Cabinets: The cabinets have fixed grids: boxes stay in place to keep your cabinet organized and uniform. The grids also prevent easy removal of boxes/supplies so that supplies last longer.

Boxes: The boxes are ANSI color coded for easy identification of what items you may need in an emergency.

SmartTab® ezRefill System: As supplies are used, a yellow SmartTab® will display when it is time to reorder supplies.

Maintaining your own First Aid Program is easier than you think, it only takes a few minutes per month, and carries substantial benefits:

✓ No Monthly Service Fees or Surcharges

✓ No Contracts

✓ Get Only What You Need Versus Overstuffed Cabinets by Van Services

✓ Dramatically Reduce Spend up to 50% Over Van Services.

✓ Easily Track and Reorder Supplies Through the FC Safety Shield®

Retrofit Grids: Convert Your Existing First Aid to a SmartCompliance® Cabinet.

Retrofit eliminates the need to remove or purchase a new cabinet. Simply insert the retrofit grids into your existing cabinet and start enjoying the cost savings!

Standard Cabinet
- Cluttered/disorganized.
- Difficult to manage inventory and restock.
- Unknown if compliant.

Updated RetroFit Cabinet
- Organized and easy to use.
- Fits into existing cabinet.
- No need to remove or replace cabinet.
- ANSI A or B compliant.

Smart Compliance® RetroFit First Aid Business Refill Grids with Medication

Smart Compliance® RetroFit First Aid Business Refill Grids without Medication

PRODUCT NO. 91172
ANSI A 2015 Compliant

READYRESERVE SAFETY CENTER

With van-based first aid service, you need to wait for their scheduled visit to get your supplies replenished. With our **ReadyReserve Safety Center,** we will supply an inventory of the items most commonly used, as well as **emergency preparedness supplies** and **PPE supplies** that need to be kept in a locked cabinet. The ReadyReserve Safety Center acts as a safety stockpile, and our customers can draw from this center when needed, not at the mercy of a van driver's schedule.

FC SAFETY SHIELD®

Our **revolutionary NFC technology** gives our customers the ability and means to **easily monitor, inspect**, and **maintain** their first aid cabinets on a regular schedule, with a robust back-end reporting system that will alert the user of any out-of-compliance situations. No more fuel or cleaning surcharges, or unwanted items in your first aid cabinet; you are in control of your first aid program and associated costs.
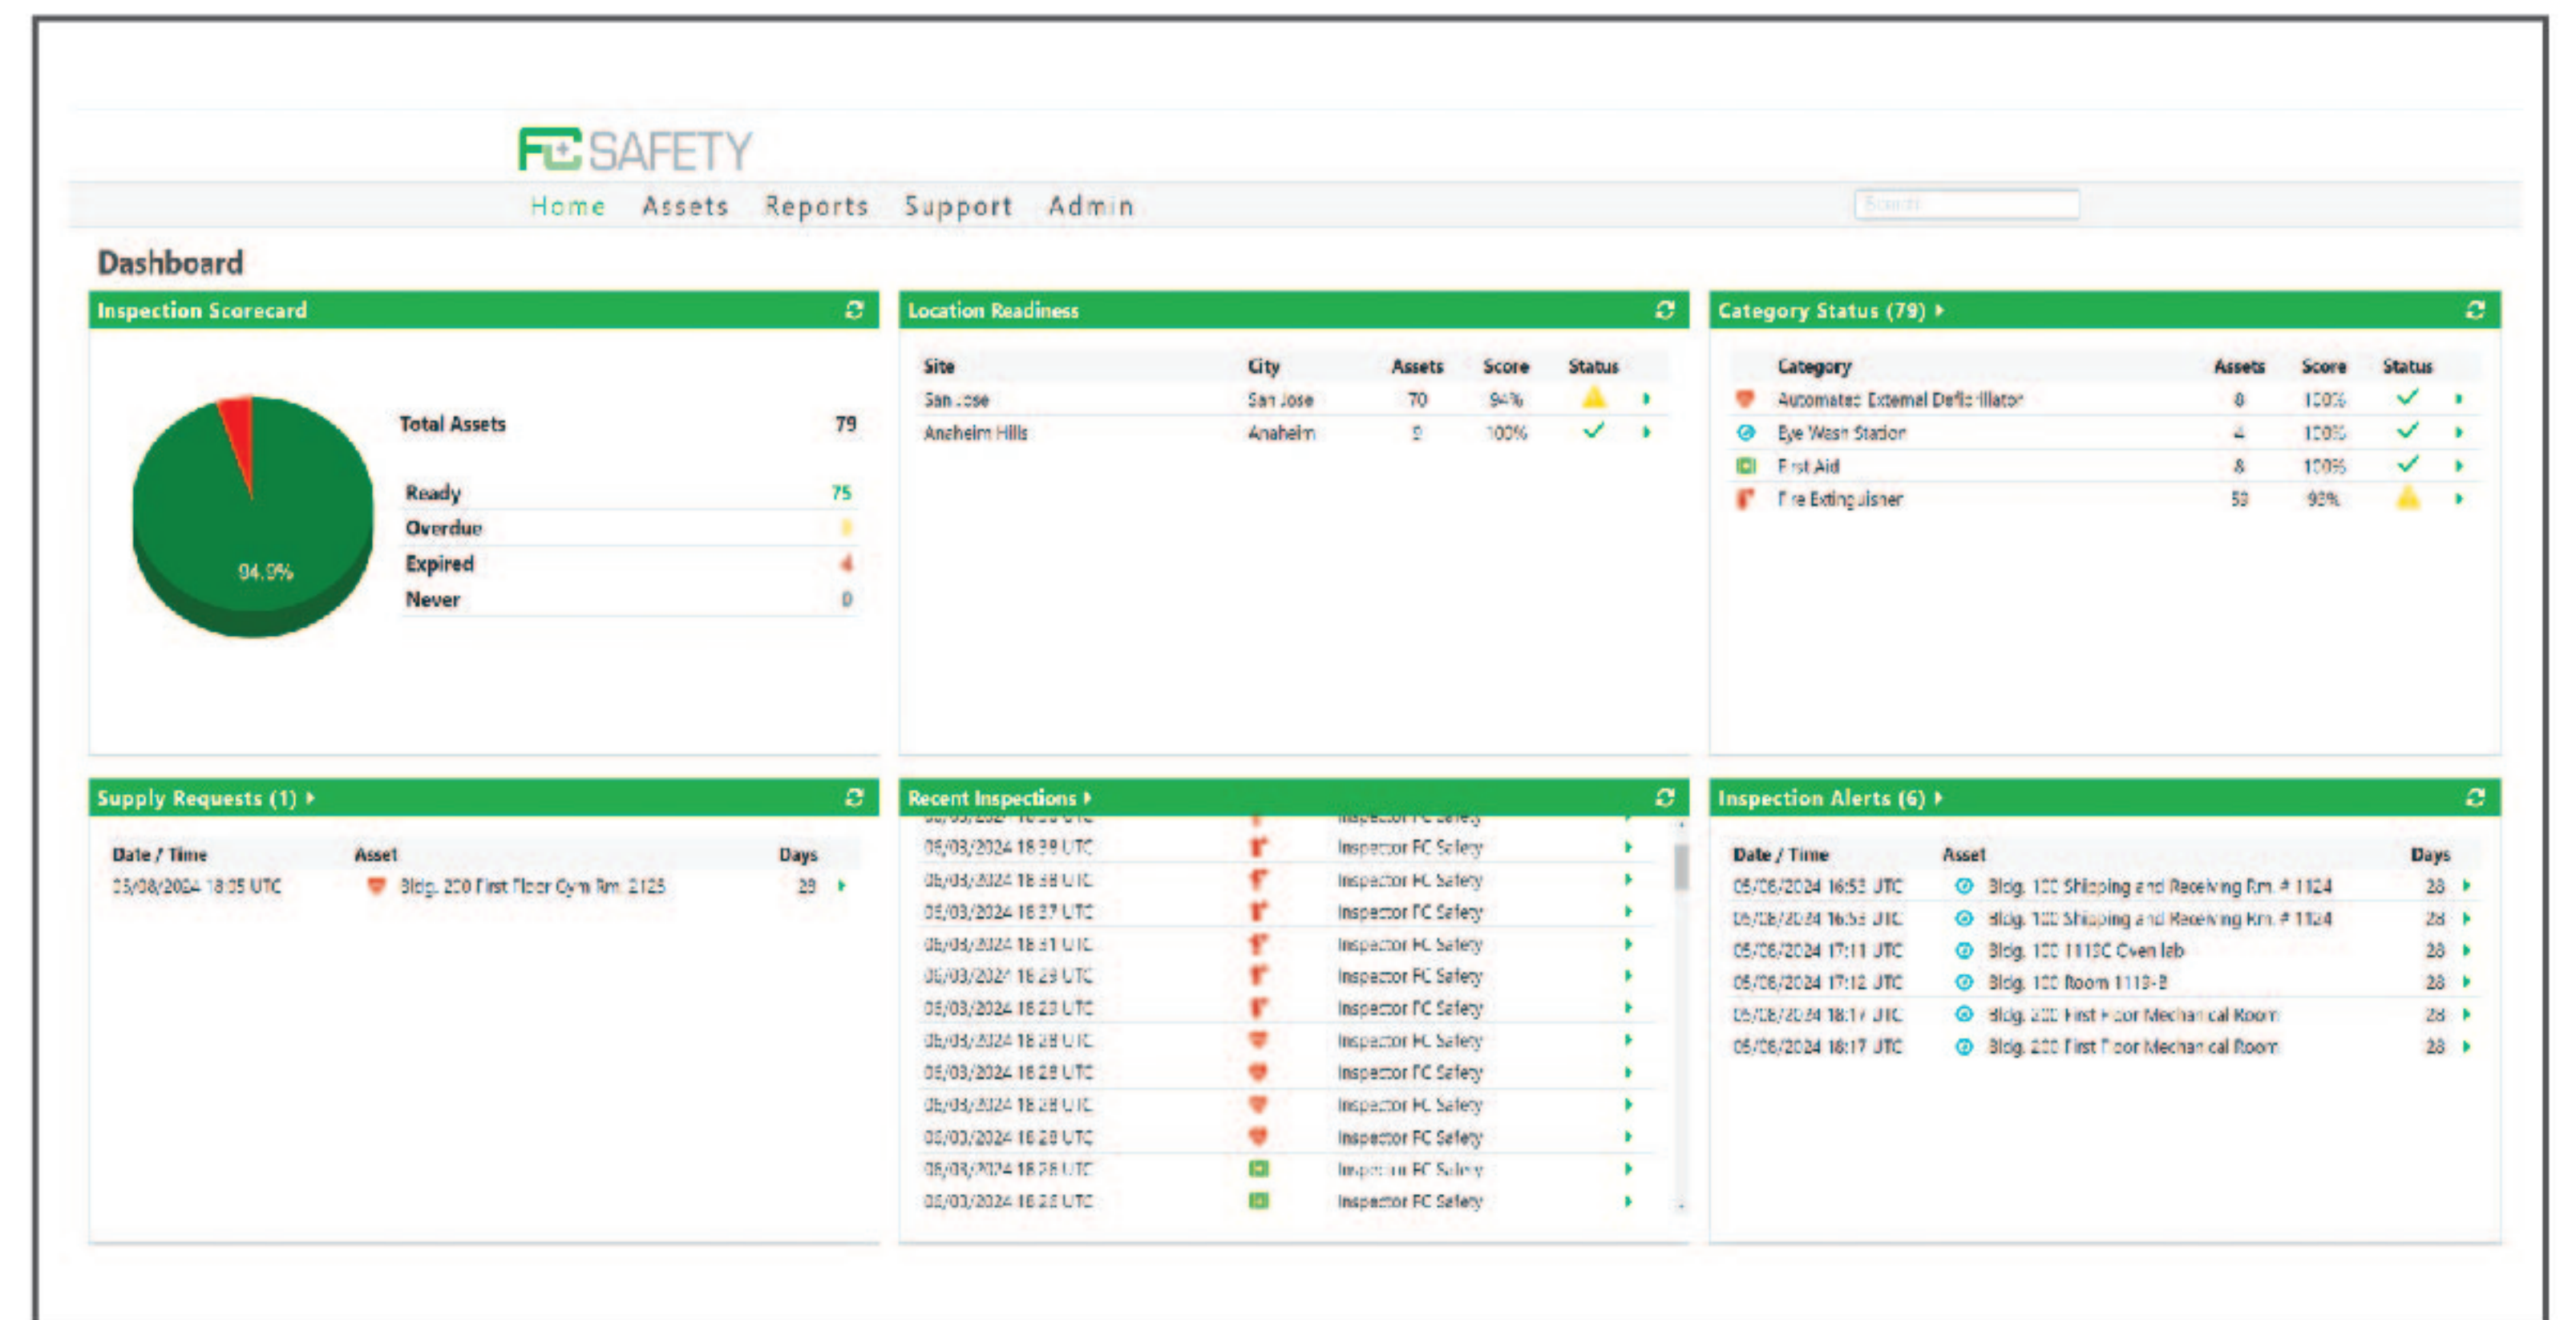

How It Works

1.) Simply attach pre-programmed FC Safety Shield® **TAG** to your safety assets.

2.) The inspectors then need to simply **TAP** their mobile phones to the FC Safety Shield® to enter an inspection.

3.) The Shield **MONITORS** all of your sites, either locally, nationwide or globally.

ANSI Standards

ANSI/ISEA Z308.1-2021 Required Contents
To be compliant with the ANSI 2021 standard, First Aid Kits must contain the following components.

Class A Kits are designed to deal with most common types of workplace injuries.

Class B Kits specify a broader range and quantity of supplies for more complex or high-risk environments.

Required Minimum Fill (Class A)

Qty	Item
16	Adhesive Bandage 1" x 3" (2.5 x 7.5 cm)
1	Adhesive Tape 2.5 yd (2.3 m) total
10	Antibiotic Application 1/57 oz (0.5 g)
10	Antiseptic 1/57 oz (0.5 g)
1	Burn Dressing (gel soaked) 4" x 4" (10 x 10 cm)
10	Burn Treatment 1/32 oz (0.9 g)
1	Cold Pack 4" x 5" (10 x 12.5 cm)
1	CPR Breathing Barrier
2	Eye Covering w/means of attachment 2.9" sq (19 sq cm)
1	Eye/Skin Wash 1 fl oz total (29.6 ml)
1	First Aid Guide
1	Foil Blanket 52" x 84" (132 x 213 cm)
10	Hand Sanitizer 1/32 oz (0.9 g)
4	Medical Exam Gloves
1	Roller Bandage 2" x 4 yd (5 cm x 3.66 m)
1	Scissors
2	Sterile pad 3" x 3" (7.5 x 7.5 cm)
2	Trauma pad 5" x 9" (12.7 x 22.9 cm)
1	Triangular Bandage 40" x 40" x 56" (101 x 101 x 142 cm)

What's the difference between the ANSI 2015 and ANSI 2021 Standards?

4	Additional Hand Sanitizers
1	Foil Blanket, 52" x 84"

Required Minimum Fill (Class B)

1	Tourniquet
4	Trauma pad 5" x 9" (12.7 x 22.9 cm)
2	Triangular Bandage 40" x 40" x 56" (101 x 101 x 142 cm)

What's the difference between the ANSI 2015 and ANSI 2021 Standards?

10	Additional Hand Sanitizers
1	Foil Blanket, 52" x 84"
1	Tourniquet

What is ANSI?
The American National Standards Institute (ANSI) and International Safety Equipment Association (ISEA) – Minimum Requirements for Workplace First Aid Kits and Supplies (ANSI/ISEA Z308.1-2021) establishes minimum performance requirements for first aid kits and their supplies. First Aid kits are classified based on the assortment and quantity of first aid supplies intended to manage most types of injuries and sudden illnesses that may be encountered in the workplace. These may include major and minor wounds; minor burns; sprains and strains; and eye injuries. As each work environment is unique, it is expected that the contents of each kit will be supplemented as needed based upon the recommendations of a person competent in First Aid.

Emergency Response
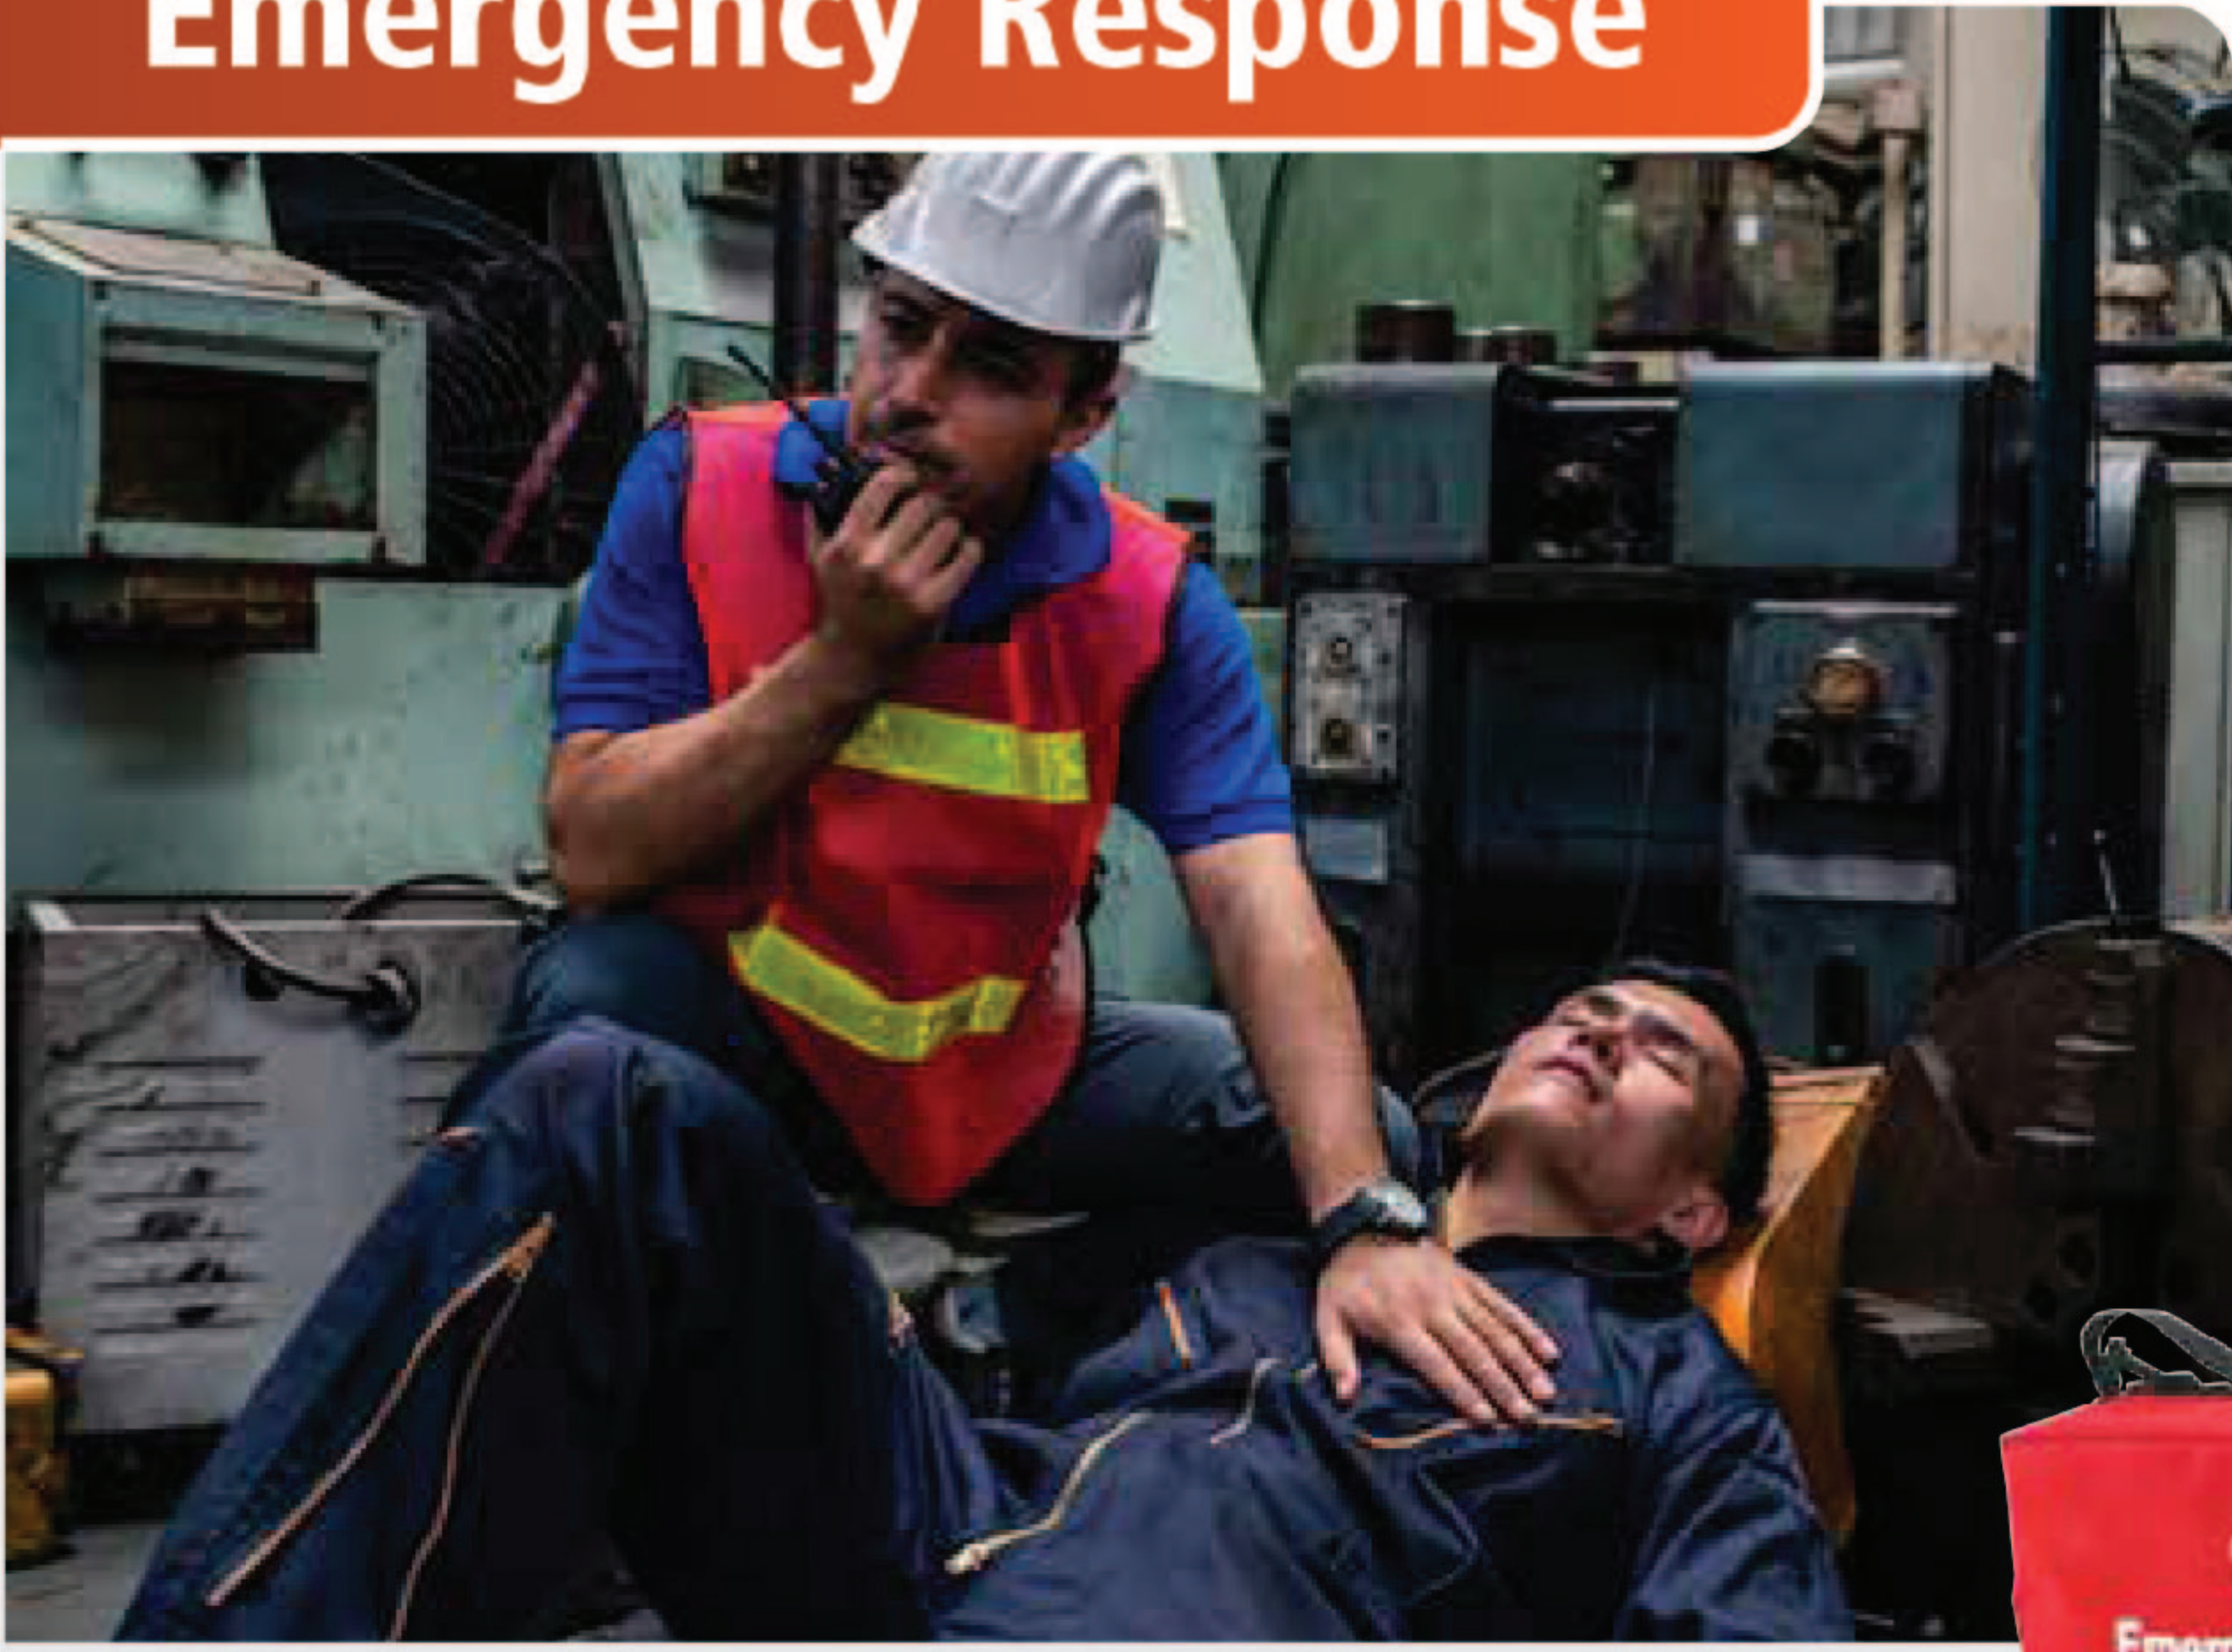

Ready, Willing and Able to Help

First Responders are on the scene quickly to assess the situation and must have the on the go supplies ready.

Showing up at an auto accident or a public incident calls for first responders to react quickly and be ready to help with on-the-go mobile trauma first aid supplies.

STOP THE BLEED® Bleeding Control Kits

STOP THE BLEED® KIT- STB1-Pq-CAT

STOP THE BLEED® BUNDLE - STB1-QK6-CAT

FC Safety's new STOP THE BLEED® Bleeding Control Kits provide the lay responder with battlefield-tested tools to help control life-threatening traumatic blood loss. Our Department of Defense (DoD) licensed kits are expertly crafted, strictly following guidelines established by the American College of Surgeons.

Stop The Bleed® Premium Kit (ANSI Compliant)
The bleeding control kit will ensure you have all the necessary items to treat the injury properly as well as keep you, the rescuer, safe. This kit includes QuikClot Bleeding Control Dressing which is a hemostatic gauze that is impregnated with Kaolin, a hemostatic agent which accelerates the body's natural blood-clotting abilities.
This kit is compliant with the new ANSI 2021 Standard (ANSI/ISEA 2308.1-2021).

Stop The Bleed® Bundle (AB2260 Compliant)
Time is of the essence in an emergency and this six-pack bleeding control bundle help you treat multiple injured parties as quickly as possible. The STOP THE BLEED® bundle includes a sturdy cabinet, and an instructional poster that provides clear and concise instructions on how to use a kit in case of an emergency. This bundle is compliant with California's AB 2260 Legislation.
